

**WE, THE UNDERSIGNED, SUPPORT THIS PETITION THAT SEEKS TO RESOLVE
THE ISSUE OF LORRY PARKING IN WARRENDENE ROAD**

We are concerned residents of Hughenden Valley which is a village that lies in the Green Belt and an Area of Outstanding Natural Beauty because of the huge number of HGVs that travel through the village and associated unacceptable parking along Warrendene Road.

- Residents are frequently subjected to excessive noise, vibration and traffic congestion caused by lorries delivering to and from Country Supplies at Oakleaf Farm. Their own, and third-party lorries are regularly stacked-up, sometimes 9 at a time, in Warrendene Road, thus making it a single-track road and creating a hazard for other road users, loss of residential amenity as well as putting pedestrians lives at risk.
- **We do not want to wait for a serious or fatal accident to occur before something is done to remedy this situation.** Accordingly, we would request that Country Supplies carries out viewings and retail sales only from the Oakleaf Farm site and that **all deliveries from their suppliers and their own deliveries are made from the large Shana site at Walters Ash** where they have sufficient space on site to accommodate these lorries rather than on the public highway that results in the loss of residential amenity and poses a danger to road users.
